### **Claim Objections**

The Examiner objected to claims 17 and 18 because they appeared to be duplicates of claims 8 and 9. Applicant has canceled the duplicate claims 17 and 18, thereby obviating the Examiner's objection. Applicant respectfully requests that the objection be withdrawn.

### **Rejections under 35 U.S.C. 102**

The Examiner rejected claims 1-6 and 21-24 under 35 U.S.C. 102(e) as being anticipated by Kao (U.S. patent 6,558,945). The Examiner points out that Fig. 1 of Kao and its description (col. 7, lines 60-67 and col. 8, lines 1-65) describe the elements of the subject invention.

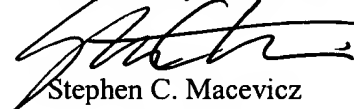

Applicants respectfully disagree with this rejection for the reason kindly suggested by the Examiner. Namely, the invention of disclosed but not claimed in Kao was invented by the inventors of the present application. Accordingly, Applicants respectfully request that the above rejection be withdrawn.

**Rejections under 35 U.S.C. 103**

The Examiner rejected claims 7-18 under 35 U.S.C. 1.103(a) as being obvious over Kao (U.S. patent 6,558,945). The Examiner cites Kao as above and further notes that the added feature of moving streams in connection therewith would be obvious to one of ordinary skill in the art.
